Overview

This document provides a structured explanation of the mobile music application prototype created using Balsamiq. It includes storyboard representations of the user flow, detailing how users navigate through the app from entry to personalized music exploration.

Application Screens

1. Welcome Page

- **Header:** Welcome
- **Message:** "Welcome to the Music App! Discover and enjoy your favorite music."
- **Actions:**
    - Log In (blue button)
    - Sign Up (gray button)

Purpose: Introduces the app and directs users to authentication options.

---

2. Log In Page

- **Header:** Log In

- **Fields:**
    - Username
    - Password
- **Actions:**
    - Log In (blue button)
    - Forgot Password? (gray button)

Purpose: Allows existing users to access their accounts securely.

---

3. Sign Up Page

- **Header:** Sign Up
- **Fields:**
    - Email
    - Password
    - Confirm Password
- **Actions:**
    - Sign Up (blue button)
- **Link:** "Already have an account? Log In"

Purpose: Enables new users to create an account and join the app.

---

4. Home Screen

- **Header:** Home Screen
- **Sections:**
    - Personalized Recommendations
    - Your Playlists (Yuvan Shankar Raja, A.R. Rahman, Ilaiyaraaja, Anirudh Ravichander, Harris Jayaraj)
- **Actions:**
    - Explore New Music (blue button)
- **Navigation Bar:** Home, Search, Library, Profile

Purpose: Provides personalized content and easy navigation to explore music.

Storyboard: User Flow

Flow 1: New User

1. **Welcome Page** → Select **Sign Up**
2. **Sign Up Page** → Enter details → **Sign Up**
3. Redirect to **Home Screen** with personalized recommendations.

Flow 2: Returning User

1. **Welcome Page** → Select **Log In**
2. **Log In Page** → Enter credentials → **Log In**
3. Redirect to **Home Screen** with playlists and recommendations.

Flow 3: Password Recovery

1. **Welcome Page** → Select **Log In**
2. **Log In Page** → Select **Forgot Password?**
3. Redirect to password recovery process (not shown in mockup).

Key Notes

- The design emphasizes simplicity and clarity.
- Navigation is consistent with a bottom bar for quick access.
- Personalized playlists highlight popular Tamil music composers.

Conclusion

This storyboard demonstrates a clear and intuitive user journey from entry to personalized music discovery. The Balsamiq mockup effectively visualizes the app's core functionality and user flow.
